Join the San Francisco Human Rights Commission at our annual College and Career Fair for high school students and Transitional Age Youth (TAY, 18-24 years old) in the Community Safety Initiative (CSI) on June 30, 2017 from 12:00 - 4:00 p.m. at the San Francisco office of LinkedIn, 222 2nd Street (at Howard Street).

High school youth and TAY can explore numerous career and college opportunities. The Fair is also designed to help participants learn about what an employer values in its employees and what colleges are looking for in potential students; and to provide job seekers and college applicants a chance to ask questions, share their interests, and network with employers and college recruiters. By making connections with potential employers, college recruiters, mentors, and peers, we hope to assist our youth in building strong networks that ultimately help them reach success with a host of people from different sectors. Participants will also hear from an amazing list of panelists including Ashley Everett, Beyoncé’s Dance Captain.
