San Francisco is providing expanded COVID-19 testing for anyone who lives or works in the city.

All essential workers can get tested regardless of symptoms. For anyone else, you must have at least one of the COVID-19 symptoms, such as fever or cough, or had recent contact with someone with COVID-19.

- Testing is free at various sites throughout the City.
- You do not need a doctor’s note to schedule a test or need medical insurance to get tested.
- Appointments are required and can be made online or by phone.
- Results are available in 1 to 3 days.

Call 311 to schedule a test at one of the following sites if you are uninsured.

Will see those with recent, close contact with someone who is COVID19+, even without symptoms.
